

Drawing Two-Dimensional Shapes with Ozobots

What is your goal?

I can draw shapes with defining attributes.

Visit the link below to learn more about two-dimensional shapes.

<https://wke.it/w/s/Zbvien>

Can you solve the riddles? Draw the shapes described in each riddle with a black marker. Include your favorite color codes from the choices below:

Snail Dose

Cruise

Turbo

Slow

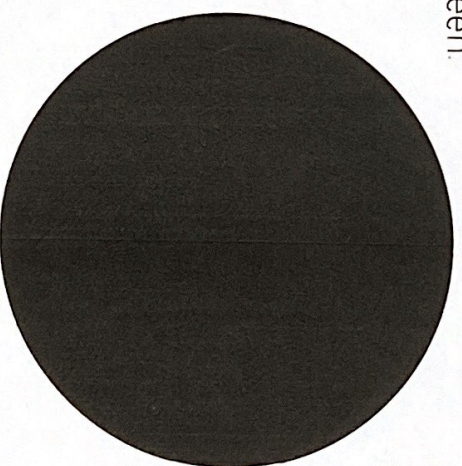

Fast

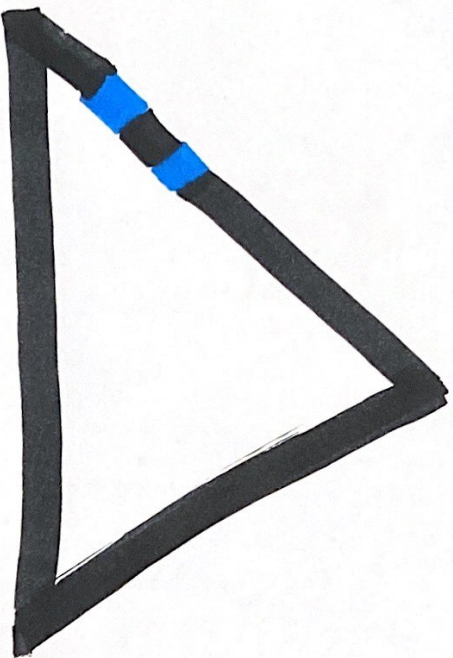

U-Turn

Press the power button on the side of the Ozobot until it flashes white. Place it in the circle. It is ready when it flashes green.

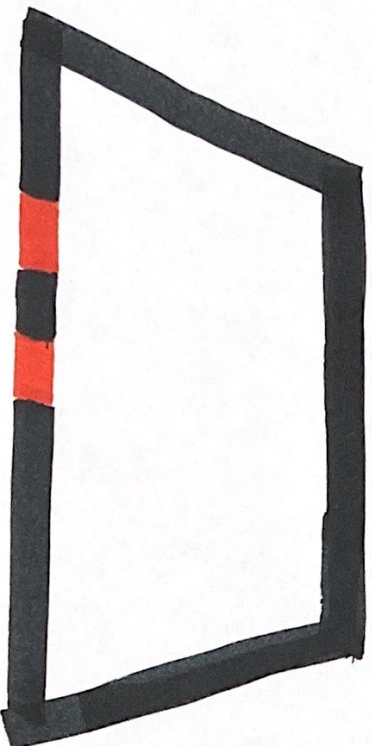

I have three straight sides and three corners. What am I?

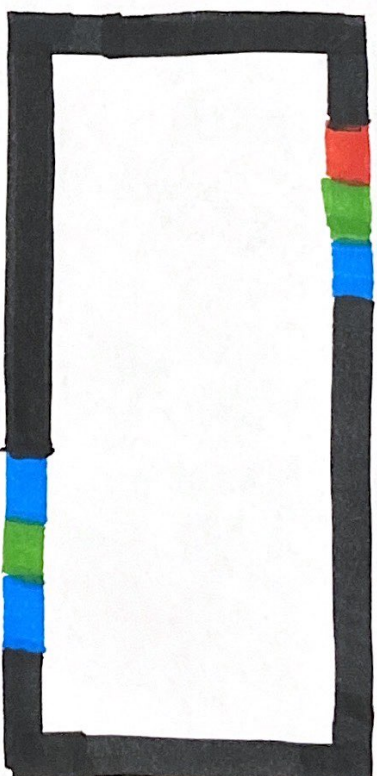

I am a triangle.

I have four sides and four corners. Two of my sides are parallel and two are not. What am I?

I am a trapezoid.

I have four corners. I have two sets of sides that are the same length. What am I?

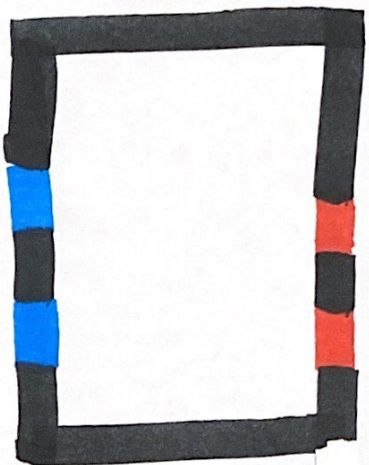

I am a rectangle.

I don't have any straight sides or corners. What am I?

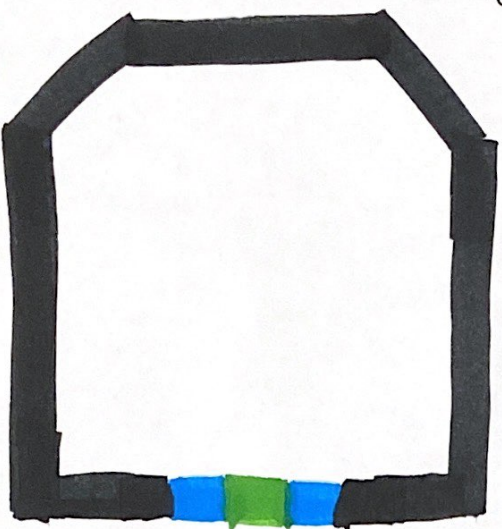

I am a circle.

I have four straight sides that are the same length. I have four corners that are the same. What am I?

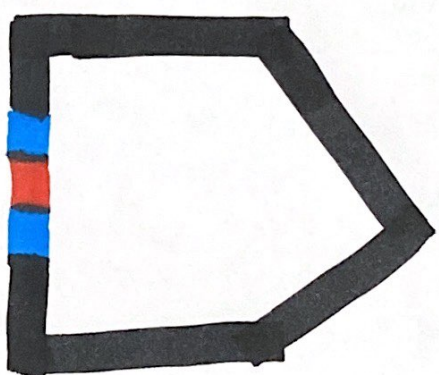

I am a SQUARE.

I have six straight sides and six corners. What am I?

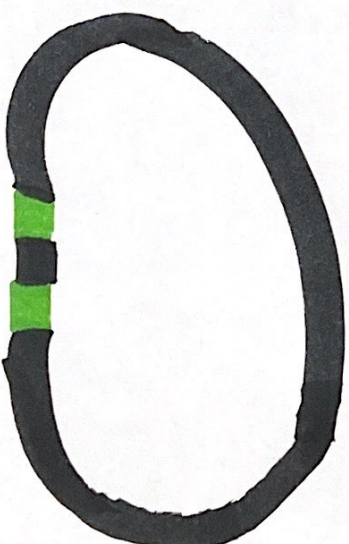

I am a hexagon.

I have five straight sides and five corners. What am I?

I am a PENTAGON.

Create your own riddle: I have no sides. I look like an egg.

What am I? I am a oval.
