

How does it feel to move?

What do you miss?

Have you lost a pet?

**Turn and talk to a shoulder partner about someone
or something you have lost.**

How did you react to the loss?

Who did you talk to ?

What was easy?

What was hard?

BrainPop Video: Mourning

Mourning isn't always connected to a person's death.

We grieve for other kinds of losses, too: The end of a friendship; the death of a pet; a divorce; moving away from home; even the loss of a favorite possession.

How do you feel about a loss you have gone through, and what would you like to remember?

What happy memories can you reflect on?

Happy Memories

Take time to write down at least 5 happy memories of something or someone you have lost.

Now think of how you might draw or illustrate that memory.
What might a map of those memories look like?

You are going to create a **Memory Map** today.
This map will also serve as an Ozobot course.
Keep the following course suggestions
in mind:

Ozobots can get confused if the course crosses or if the
corners are too narrow.
Try to use **5 OzoCodes**
Codes may be spaced out in any way

Introducing Ozobot

The mini robot!
