

Seasons Changing

Activity 1 Solution

Name: _____

Date: _____

Directions:

Use words from the Word Bank to fill in the blank on each seasonal sentence. Then fill in the matching Color Codes for each number on Activity Sheet 2. Ozobot should make it from Autumn to Winter with no errors.

1. When trees lose their leaves in autumn it is a way of preparing to survive the winter.
2. In autumn and winter, Earth is tilted away from the Sun, so there is less sunlight and the days are shorter.
3. Hibernation is when animals go into a deep sleep to save energy and survive the winter without eating much.
4. Some animals, such as birds, migrate from one place to another to find warmer temperatures.
5. During autumn, crops ripen and are ready to be harvested.
6. Leaves change color because trees break down chlorophyll in the leaves to store nutrients during the winter.
7. Some mammals will grow a thicker, warmer winter coat.
8. Autumn and winter have the least amount of daylight of the four seasons.
