**USE YOUR OZOBOTS AND SPEED CODES
TO MAKE BLENDING PRACTICE FUN
AND ENGAGING FOR STUDENTS!**

OZOBOT BLENDING

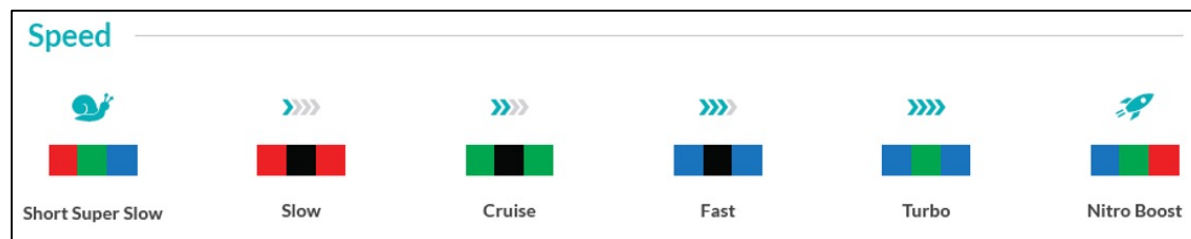

Use your Ozobot to help students practice blending words!

Directions:

- Prep the boxes with the words you want your students to read. Write the letters that represent each sound in one box and cut out the whole word.
- Fill in the color codes. Make the first code a slow speed and the second code a fast speed. You can choose different slow/fast speeds depending on what students need.
- For each word, students say each sound as the Ozobot moves slowly and then blend the whole word when the Ozobot moves quickly.

Variations:

- Let students build words using letters tiles and then practice blending.
- Using letter tiles, challenge students to change 1 letter at a time and blend the new word.

BLENDING LINES:

Speed

 	 	 	 	 	 
Short Super Slow	Slow	Cruise	Fast	Turbo	Nitro Boost

BLEND!

A horizontal bar chart titled "Speed" comparing the relative performance of six modes. The bars are color-coded: red for slow, black for medium, and blue for fast. The modes and their relative speeds are: Short Super Slow (slowest, red), Slow (red), Cruise (medium, black), Fast (fast, blue), Turbo (fastest, blue), and Nitro Boost (fastest, blue). The bars are arranged in ascending order of speed from left to right.

Mode	Relative Speed
Short Super Slow	Slowest
Slow	Low
Cruise	Medium
Fast	High
Turbo	Very High
Nitro Boost	Fastest
