Ozobot 3D CAD Library Lesson

Trash Sorter Arena (2/2)

- 1 Cut, or fold-and-tear, along the long dashed line.
- 2 Apply a glue stick to the other page.
- 3 Line up the ☆☆☆ at the top and the ◇◇◇ at the bottom before gluing the pieces together.
- 4 Cut out each of the rectangles above.
- 5 Fold the dashed lines inward.

- 6 Place each collection box where they go. A little bit of glue stick will help keep them in place.
- 7 Use the scraps from this page to fold or crumple up at least four small objects for your Ozobot robot to sort.
