SAMPLE SOLUTION

G | Random Prefix Activity Sheet

Use your Ozobot to choose a prefix and a root to make a word. Decide if the word is one that is normally used. If yes, circle Y and write the meaning in the far right column. If no, add another prefix to the root to make a word that is normally used, then write the meaning in the far right column. Only write a prefix + root combination one time. If your bot chooses the combo again, go back to start and choose again.

	Prefix	+	Root	=	What does it make?	Is it a real word?	If no, use the root with a different prefix	What does the word mean?
