Introduction to Ozobot Blockly 05: Skills Check

Activity Sheet

1 What is the definition of sequence?

A sequence is an ordered set of instructions.

2 What is the action/purpose of a loop?

A loop is a block that programs a sequence to repeat.

3 If you are debugging, what are you doing?

Debugging is fixing blocks in a sequence so they run the way you expect them to run.

**4 What is the sequence of blocks to use if you want your bot to travel in a stair stepping shape?
Write in your own words (this is called pseudocode).**

Move forward 4 steps, rotate left, move forward 4 steps, rotate right.

5 What is your favorite code block that you've learned so far, and why?

open-ended answer
